

Is your company ready for Odoo?

Fifteen questions we ask on every fit call. Tick what's true today – the gaps are your first project plan.

Processes

- ☐ We can describe, step by step, how an order becomes an invoice.
- ☐ We know which spreadsheets run the business – and who owns each one.
- ☐ We know where we copy the same data between tools.
- ☐ We have one person who can decide on process questions.

Data

- ☐ Our customer and vendor lists are mostly clean.
- ☐ We know our product or service catalog, with current prices.
- ☐ We trust our stock counts (or we know we don't).
- ☐ We know which history we really need to bring over.

People

- ☐ Key users can give 3–4 hours a week during the project.
- ☐ The team knows why we're changing systems.
- ☐ We have a go-live window outside our busiest season.

Books

- ☐ Our accountant knows about the project and will own the chart of accounts.
- ☐ We know our month-end close steps and how long they take.
- ☐ Our sales tax setup is documented (states, rates, exemptions).
- ☐ We know how inventory is valued today (if we hold stock).

Scored 10 or more?

You're ready for a Blueprint. Fewer? Book a 30-min fit call anyway – we'll tell you honestly what to fix first.
