

SAMPLE

## Partner agreement — key terms

A plain-English summary of the Evenmont referral partner agreement. The signed agreement governs.

|                               |                                                                                                                                                |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Parties</b>                | JITO LTD, trading as Evenmont, and the partner firm.                                                                                           |
| <b>What the partner does</b>  | Introduces clients who may need an Odoo implementation. No sales targets, no quotas, no fee to join.                                           |
| <b>What Evenmont does</b>     | Sells, implements and supports Odoo for the client. Never offers accounting, tax or advisory services to referred clients.                     |
| <b>Referral fee</b>           | 10% of the fees the client pays Evenmont in the first 12 months after signing, excluding Odoo licenses and taxes.                              |
| <b>Client discount option</b> | The partner may instead pass the same amount to the client as a discount — required where the partner performs attest services for the client. |
| <b>Payout</b>                 | Within 30 days after the client pays, with a quarterly statement.                                                                              |
| <b>Deal registration</b>      | An introduction registered in writing is protected for 12 months.                                                                              |
| <b>Disclosure</b>             | The partner discloses the fee to the client in writing. Evenmont provides a disclosure template.                                               |
| <b>Co-delivery</b>            | Optional, per project: the partner owns the accounting part and invoices the client directly at its own rate.                                  |
| <b>Confidentiality</b>        | Both sides keep client information confidential and use it only for the client's project.                                                      |
| <b>Term and exit</b>          | Open-ended; either side may end it with 30 days' notice. Fees on clients already signed are still paid.                                        |
| <b>Governing law</b>          | Republic of Cyprus.                                                                                                                            |
